

BICENTENARY

The foundation stone for St Patrick's Cathedral was laid in 1825, the building completed in 1826, and in the intervening two centuries it has served not only as a place where successive generations have gathered to worship and to mark the important faith milestones in their lives but also as a focal point for the wider community during times of celebration and times of strife. To celebrate the bicentenary, a committee has been formed to prepare a programme of special events to raise funds for essential conservation and maintenance works. Ireland has changed beyond recognition in the past 200 years, but St Patrick's Cathedral remains as a testament not only to the commitment to faith of our forebears but also as a testament to what can be achieved when a wider community works together. Your generosity will ensure that this magnificent building remains a focal point for future generations.

STAGE ONE: CONSERVATION MANAGEMENT PLAN

St Patrick's Cathedral is listed in the *National Inventory of Architectural Heritage* and on the *Record of Protected Structures*. With the assistance of donations received through our Bicentenary fund-raising appeal and grants available for such conservation projects, we have engaged a specialist

Conservation Consultant to prepare a Conservation Management Plan.

This Conservation Management Plan will act as a road map for the essential conservation and maintenance works to the Cathedral over the next number of years. The achievement of Stage One, the *Conservation Management Plan*, will allow us to move onto Stage Two. That is, planning for and implementing the necessary works.

BOOK OF REMEMBRANCE
